INSTRUCTIONS IMPORTANTES. À CONSERVER POUR USAGE ULTÉRIEUR : LIRE ATTENTIVEMENT

MATERIEL NECESSAIRE

TOURNEVIS CRUCIFORME

CONTENU DE LA BOITE

MAT x 1

SOCLE x1

OU

PIEDS x2

VIS X 1

MODULES :
2 MODULES
PAR TAILLE

1 - Sélectionnez l'endroit où vous souhaitez mettre votre sapin.
(une fois monté, le déplacement peut-être difficile).

2 - Triez les modules par tailles

Servez-vous du carton comme support pour déposer les modules.

3 - Assemblez le socle et le mât avec la vis fournie.

Astuce : Pour garantir la solidité du pied du sapin vous pouvez mettre un point de colle en plus de la vis, pour assembler le mât et le pied du sapin.

4 - Retournez le pied et déposez-le à l'endroit choisi.

5- Débutez l'assemblage en commençant par les modules, des plus grands aux plus petits.

Insérez le trou de chaque module dans le mât. (Vous pouvez aussi insérer les modules par deux de même tailles). Attention, si les modules sont biseautés, bien orienter le biseau vers le bas.

6 - Faire pivoter les modules pour obtenir la forme souhaitée.

NECESSARY EQUIPMENT

SCREWDRIVER

CONTENTS OF THE BOX

1 x MAST

1 x BASE

OU

2 x FEET

1 x SCREW

MODULES:
2 MODULES PER SIZE

1 - Choose where you want to place your Tree.
(when assembled, it is difficult to move).

2 - Divide the modules according to size.
Use the cardboard as a base for the modules

3 -Assemble the base and the mast with the screw provided.

Tip: to ensure the stability of the Christmas tree's base you can add a drop of glue in addition to the screw when assembling the mast and the base of the tree.

4 -Turn the base and place it in your desired location

5 - Begin the assembly by starting with the modules, from the largest to the smallest.

Insert each module into the mast through the hole. (You can also insert two modules of the same size at a time). Pay attention, if the modules are bevelled, ensure the sloping edge is pointing downwards.

6 - Pivot the modules to obtain the desired form.

INHALT

1 STANGE

1 SOCKEL

Oder

2 FÜSSE

1 SCHRAUBE

ASTMODULE: JE 2 MODULE PRO LÄNGE

1 - Überlegen Sie, wo Sie aufstellen möchten

(einmal aufgestellt, ist es womöglich schwierig, ihn an einen anderen Ort zu versetzen).

2 - Astmodule nach Länge sortieren

Den Karton nutzen, um die Astmodule abzulegen.

3 - Sockel und Stange mithilfe der Schraube verbinden

Tipp: Damit Woody auch wirklich stabil steht, eventuell zusätzlich zur Schraube noch etwas Klebstoff auftragen, um die Stange mit dem Sockel/Fuß zu verbinden.

4 - Sockel/Fuß mitsamt Stange am ausgewählten Standort aufstellen

5 -Astmodule an der Stange anbringen, die längsten zuerst, die kürzesten zum Schluss.

Hierfür einfach die Module nach und nach von oben auf die Stange stecken. (Sie können auch jeweils zwei Module der selben Länge gleichzeitig auf die Stange stecken.) Achtung: Wenn die Module abgeschrägt sind, so montieren, dass die Abschrägungen nach unten zeigen.

6 -Module so drehen und schwenken, dass der Baum die gewünschte Form erhält.

MATERIAL NECESARIO

DESTORNILLADOR CRUCIFORME

CONTENIDO DE LA CAJA

MÁSTIL x 1

BASE x 1

OU

PIES x 2

TORNILLO x 1

MÓDULOS:
2 MÓDULOS POR TAMAÑO

1 -Seleccione el lugar donde desea poner el abeto.
(una vez montado, resulta difícil moverlo).

2 -Ordene lo módulos por tamaño

Utilice el cartón como soporte para poner los módulos

3 -Monte la base y el mástil con el tornillo que incluye el producto.

Truco: para garantizar la solidez del pie del abeto, puede poner una poca de pegamento además del tornillo, para montar el mástil y el piel del abeto.

4 -Dele la vuelta al pie y póngalo en el lugar elegido.

5 - Empiece a montar por los módulos, de los más grandes a los más pequeños.

Introduzca el orificio de cada módulo en el mástil. (También puede introducir los módulos de dos en dos si son del mismo tamaño). Atención: si los módulos están biselados, orientar el bisel hacia abajo.

6 - Girar los módulos para conseguir la forma deseada.

MATERIAL NECESSÁRIO

CHAVE DE FENDAS

CONTEUDO DA CAIXA

MASTRO x 1

BASE x 1

OU

PÉS x 2

PARAFUSO x 1

MÓDULOS:
2 MÓDULOS POR TAMANHO

1 -Selecione o local onde pretende colocar o abeto.
(depois de montado, a deslocação pode ser difícil).

2 -Divida os módulos por tamanhos

Utilize o cartão como suporte para colocar os módulos

3 -Monte a base e o mastro com o parafuso fornecido.

Sugestão: para garantir a solidez do pé do abeto poderá colocar um ponto de cola para além do parafuso, para montar o mastro e o pé do abeto.

4 -Vire o pé e coloque-o no local escolhido.

5 - Inicie a montagem começando pelos módulos, dos maiores para os mais pequenos.

Introduza os módulos no mastro através dos respetivos orifícios. (Pode também introduzir os módulos por dois do mesmo tamanho). Atenção, se os módulos forem biselados, deve orientar a parte biselada para baixo.

6 - É necessário rodar os módulos para obter a forma pretendida.

Les produits fabriqués en bois sont sensibles aux variations d'hygrométrie ou de température. Veillez à ne pas stocker ce produit à la cave ou dans tout autre endroit où l'humidité ou la température pourraient altérer le bois. Veillez également à ne pas mouiller ou tremper ce produit. Sa solidité s'en verrait irrémédiablement altérée, même après séchage.

Products made of wood and are sensitive to changes in humidity and temperature. Do not store the product in the cellar or in any other place where humidity or temperature could alter the wood. Also ensure that the product is not dampened or soaked. Its solidity would be irreparably altered, even after drying.
